Juicy Lucy

The 69 Eyes

Every time I call her name she's right there by my side Every time that I think it's a change

There's no place left to hide

This must be for real

This must be for real

This must be for real

It can't be a dream

Every time I blow my love

She's knockin' on my back door

Every time that I tear her clothes

She pulls me down some more

This must be for real

This must be for real

This must be for real

It can't be a dream

Juicy, juicy, juicy lucy

Juicy, juicy, juicy, juicy lucy

Juicy, juicy, juicy lucy

Juicy, juicy, juicy lucy

Scary woman put me under, under her spell

Never tell, if I risk it I ____ her

There still standin', try to get my hand in

But she gets away_____one stride

Every day she comes around

Lookin' good and tryin' to catch my eye

Ain't no way to tell her no

I guess I never even thought to try

This must be for real

This must be for real

This must be for real

It can't be a dream

Juicy, juicy, juicy lucy

Juicy, juicy, juicy lucy

Juicy, juicy, juicy lucy

Juicy, juicy, juicy lucy

Every time I tie her down she wants to let me go

Every time I start to slide

She's tellin' me I'm way to slow

This must be for real

This must be for real
This must be for real
It can't be a dream
Juicy, juicy, juicy, juicy lucy
Juicy, juicy, juicy, juicy lucy
Juicy, juicy, juicy, juicy lucy
Juicy, juicy, juicy, juicy
