Starlight Express

El Debarge

When the night is darkest, open up your mind
Dream begins, it's becoming clearer
Listen to the distant, listen and you'll find
A midnight train is getting nearer
Starlight Express, Starlight Express
Are you real? Yes or no?
Starlight Express, please answer me yes
I don't want you to go
Take me to the places I have never been
Bring me home safely before I wake up
'Cause I believe in you completely though you may be unseen
This is not the kind of thing that anyone can make up
Starlight Express, Starlight Express
Are you real? Yes or no?
Starlight Express, please answer me yes
I don't want you to go
You're in need of bigger world to help you
Don't go on worrying deep inside
Starlight Express, Starlight Express
Are you real? Yes or no?
Starlight Express, please answer me yes
I don't want you to go
My Starlight Express, please answer me yes
I don't want you to go
