

Open Water Stormy Weather

Von Herten Brothers

open waterpeople oh people how sad oh how sad
your ego and envy
oh people oh people so cold oh so cold
youre all feeling empty and alonepeople oh people no way theres no way
youre safe in this riot
oh people oh people whatever you say
we fail to be quiet and behavelife is an opportunity
for you and for me
to define harmony
life is an opportunity
to throw away the key
to your negativetypeople oh people now when will you learn?
get the picture?
oh people oh people you have to return
back to naturecause life is an opportunity
to realize thatyes theres something real behind the glitter
oh yes theres something sweet under the bitter
cause i have seen this world
and its a well its a god damn gutteropen water stormy weather
