Naked

Disembodied

Awakened by the fear of an omnipresent danger
And the absence of touch
Accordingly my heart beats alone
Sucked dry of all emotion
It bleeds for feeling
But I'm so scared I'll run into another wall
Afraid to lose my mortality
I stand alone
Shivering cold
Alone
Naked for the world to see
Breathing becomes easy
As I come closer to confronting my fear
Now I lay in that same dead end state as I was before
Frozen from your icy touch
Cold as I was before
Alone for the world to see.
