

# All Secrets Known

## Alice In Chains

Hope, a new beginning  
Time, time to start living  
Like just before we die  
There's no going back  
To the place we started from  
Hurts, falling through fingers  
Trust, trust in the feeling  
There's something left inside  
There's no going back  
To the place we started from  
All secrets known  
Calm, all wounds are healing  
Strong, truth is worth saving  
I want to feel alive  
There's no going back  
To the place we started from  
All secrets known
