

# Are You Hungry? Eat Your Import!

Faron Young

The day you bought your foreign car, you thought it was so nice  
A little better mileage, at a little cheaper price  
You didn't think about it, you were working at the time  
But now you're standing jobless in the unemployment line(Chorus:)  
Are you Hungry? Eat your import!  
And when you're through, have a few Ataris for dessert  
Your foreign car but seven more Americans out of work  
Are you hungry? Eat your import!If your business has no business, don't you cry to me  
It's ten to one your television doesn't say GE  
Your shoes were made in Italy  
Your shirt is from Taiwan  
The only thing American is the Levi's you have oneChorusAmerica's always been the leader, don't you sell her  
short  
Remember men like Edison, Bell, and Henry Ford?  
One question for the government that's sticking in my craw  
Why ain't there no Harley's being ridden by the law?Chorus(Fading)  
Yeah if you're hungry, try the hood over on that Dodson, see what it tastes like fella  
You'll have to pour boil that tire on that Honda to make it tender  
Oh you wanna eat upper class? Try a bite of that Mercedes Benz over there, that'll fill you up  
Kawasaki? I can't even spell it, pronounce it, let alone ride it!
