

# Lonely Nights

Lee Andrews

No more lonely nights  
For everybody that find's their way  
Someone is lost  
For everybody who feels the fear  
I'll take half the pain that you hide  
Inside  
Chorus:  
If it's meant for you, it won't pass you by,  
Don't live your life on the line  
Like a carousel, it'll turn around, so many times  
We might change a bit, doesn't everyone,  
Lost in the moment we find  
And madness is right, when you're by my side,  
No more lonely nights  
So many words that I meant to say  
Don't come out right

So many chances I have to take  
Girl if I've never told your before  
Your beautiful  
Chorus  
Everytime that we kiss you take me breath away  
I could talk for the world but you can silence me  
I get lost in your arms when you're holding me  
No more lonely nights  
If it's meant for you, it won't pass you by  
Chorus(
