Embedded

Deafest

An incision leads to the future of the new world
A mark buried deep under the skin and flesh
Will divide and distinguish man
Signatures implanted on the hands and foreheadRe occurrence of modern times and scriptures
Testament to holy doctrines written in vital blood
In the extent all will hold something very similarly
And accordingly all will bear his nameWith the distinct and original number of his signature
In a new world with suppressing technology
Lacerations lead to codes embedded in blood
Streams beneath the fleshCurrencies fuse together to form a solitary
And overruling capital
Money evolves into cryptic letters and numbers
That flow through the netA conflagration set to diminish papered riches
Depleting its masterdom
No longer capable of enslaving the likes of human kind
From only presenting itself as a form of an objectFragments of ash flow through the atmospheres currents
Onlookers breathe and inhale what they once worshiped
The demons solution, a new world order
