

Baby Put Your Clothes On

Tracy Byrd

Baby, put your clothes on, put on those brand new shoes
I wanna take you downtown, I got a little blues to lose
Wanna see you dancing, swinging to a country song
I love to show you off, baby, put your clothes on
We been sittin 'round here doin' nothin'
Maybe we could use a little belt-buckle rubbin'
Where the lights are low and the music's fine
It wouldn't hurt us none to have a little you and me time
Baby, put your clothes on and paint up those pretty lips
Slip on those cool blue jeans, ones that ride low on your hips
Gonna make some heads turn, little girl you look so strong
I love to show you off, baby, put your clothes on, yeah now
Baby, put your clothes on, put on those brand new shoes
I wanna take you downtown, I got a little blues to lose
Wanna see you dancing, swinging to a country song
I love to show you off, baby, put your clothes on
We been sittin 'round here doin' nothin'
Maybe we could use a little belt-buckle rubbin'
Where the lights are low and the music's fine
It wouldn't hurt us none to have a little you and me time
Baby, put your clothes on, slip on those brand new shoes
I wanna take you downtown, I got a little blues to lose
Wanna see you dancing, swinging to a country song
I love to show you off, baby, put your clothes on
Oh, I love to show you off, baby, put your clothes on, oh yeah, oh yeah
Baby, how 'bout putting on that little top, you know
The one that will surely turn me on?
Why edit, slip in that belly botton ring I bought you for Christmas last year
You know I like it, there you go
