

Biggest Regret

Effie

Ohhh ohhh heyyy ohhh Two pieces torn now that you've flown out
I can see behind your eyes
Used to be blind but I see clear
No longer struck down by your lies
And i don't want you back
This will be your big regret
And il make sure you know just how it feels to be abandoned now Which way to go
I don't know, but I'm feeling stronger now
And its hard without you
But I'm moving on somehow
Since you've been gone
I've finally grown
Some day you will see and regret not loving me Two souls connected but you left it
On the shelf i wonder why
For you to leave so suddenly
you didn't want that kind of life
You may want me back
I could be your big regret
Guess time will tell
Lets see if it was me or you who truly fell Which way to go
I don't know, but I'm feeling stronger now
And its hard without you
But I'm moving on somehow
Since you've been gone
I've finally grown
Some day you will see and regret not living me Oooo ohhh ohhh woahhhh
Yeah yeah yeah yeah yeah Ohhhhhh Big regret now , big regret now , big regret now , big regret et X2 (Fade)
(End)
