Marked

Vereker

I never knew what I was up against
You made it all so complicated before I left
Chaotic weapons, there was no defense
A passage through your apathy, I fled

Your frozen heart was so cold
So cold
You left your mark on my soul
My soul

So many lives struck by indifference
I should have known I held you up too high
You thought your daggers left no evidence
These scars we bear, you just can't deny

Your frozen heart was so cold
So cold
You left your mark on my soul
My soul

I can't imagine
How you could fashion
This life you live
With no sense of compassion
Would you bleed for me
Evil smiles that you sold me
Would you be the one to save me?

Your frozen heart was so cold
You left your mark on my soul
My soul, yeah

Your frozen heart was so cold
So cold
You left your mark on my soul
My soul

Torn apart a broken heart
Should have known right from the start
Left me lying in the dark

So cold
