

Fairy Dust

Tove Lo

[Instrumental]Where did the pain come from?
When everything's so shiny and beautiful...
Nobody knows me
I'm falling right back into my dark hole
And never felt more safe
All the crazy shit that we did
There's nothing pure about the way we do things
What's your line, though?
That I'm fine, oh
Heard that beforeNo one expects anything from here
I'm free
