Don't You Want to Know What's Wrong?

Field Music

Time for you to work your brain
Time to choose to take it seriously
(And not just yourself)
Those excuses that you make
Are wearing out
You've been wearing them far too long
You start up about how you feel
And your heartbroken fingernails
(Floating to your feet)
If there's more it's hard to see
'Cause what you said
You've been saying it far too long
Don't you want to know what's wrong?
Try to stop getting it wrong
Don't you want to know what's wrong with you?
Time for you to work your brain
Time to use the electricity
(Tested thoroughly)
They say your first thought is the best
But I can't recall
Any advice worth less than that
Don't you want to know what's wrong?
Try to stop getting it wrong
Try to stop putting me on
Don't you want to know what's wrong with you?
