## The Crispies

[Intro]

The reign's falling down

[Verse 1]

You said certainly I'm no man  
But you couldn't even comprehend  
That I couldn't ever understand  
And you said certainly I'm no good  
I think I've treated you like I should  
And I wouldn't leave you if I could

I'll keep you close to me  
Will you keep me close to you  
Oh god I'm holding you  
I'm holding onto you boy

I'm starting to think we look good together  
Why don't you care how I act  
Think you could treat me a little bit better  
How can I get you to be nice to me  
Babe I think you're blind  
Oh honey why don't you see oh

[Chorus]

Never gonna leave you  
Never gonna leave you  
Never gonna leave you

Never gonna leave you alone

[Verse 2]

Do you remember what I said when I first met you  
You've got a beautiful face  
I would let you disappear without a trace  
You might really be the one I wanna call  
But me being around you  
Maybe isn't what you want at all but I

[Chorus]

Never gonna leave you

Never gonna leave you  
Oh, Never gonna leave you

Never gonna leave you  
Never gonna leave you alone

[Bridge]  
I just wanna talk  
Yeah, I just wanna talk  
I just wanna talk  
I, I  
I won't cry this time

Yeah, you said certainly I'm no man  
And I didn't ever understand  
That you couldn't ever understand  
Yeah, you said certainly I'm no good, no no no no  
You haven't ever understood  
I'm never gonna leave you for good, no

[Chorus]  
Never gonna leave you  
Never gonna leave you  
Oh, Never gonna leave you

Never gonna leave you alone
