Must've Been High

Supersuckers

I kind of bump around and I wonder
What I'm feeling like and what I do
I take a look around and I'm underwhelmed
With my big bad selfI will walk in hell, so are youI kind of roll along without anger
When they're giving me their evil eye
'Cause I've been coming down like a stranger
Something 'bout 'em rings the bell[Incomprehensible]
You must've have been high
I walked the hell, I must've been highYeah, I kind of bump around and I wonder
What I'm feeling like and why
I take a look around and I'm underwhelm
With my big bad self[Incomprehensible]
I must've been high
I know they look and tell
I must've have been highSay I couldn't feel this world
(I must've have been high)
And I laugh untill I cry
(I must've have been high)And I started looking for today
(I must've have been high)
Yeah, I must've have been high
I must've have been highI must've have been high
I must've have been high
I must've have been high
I must've have been highI must've have been high
I must've have been high
I must've have been high
I must've have been high
