

# Merlin

[Joel Goldsmith](#)

Merlin, the sea, lunar delight  
Merlin, my dear uranium bride  
Merlin, my birth, my solar grenade  
Merlin, so real, is what I elate  
come and get me...and we dive away now...  
utopian grey now!Merlin, my fear, my cosmic perfume  
Merlin, the seed, the snake I consume  
Merlin, my sin, my Lilith in flames  
take me away on luminous trains  
come and get me...and we dive away now...  
utopian grey now!Merlin try to break me, take me, hate me  
Merlin try to haunt me, be my sunand we dive away now...  
utopian grey now!
