

# Almost

## Orchestral Manoeuvres in the Dark

I'd travel, oh so far away  
To be where you are  
I'd travel there by car away  
To be where you are But if I get there I'd find  
That I'd change my mind  
It happens all the time  
To a friend of mine Always making statements  
And moving step by step  
Always acting theories  
I will regret My only consolation  
In the things that I've done  
Are the people who know me  
And the objects I own Happens all the time  
To a friend of mine Happens all the time  
To a friend of mine Happens all the time  
To a friend of mine
