# Numb (Tom Middleton Cosmos Remix)

## Sia

I saw you cry today
The pain may fill you
I saw you shy away
The pain will not kill youYou made me smile today
You spoke with many voices
We traveled miles today
Shared expressions voicelessIt has to endLiving in your head
Without anything to numb you
Living on the edge
Without anything to numb youIt has to end to beginBegan an end today
Gave and got given
You made a friend today
Kindred soul cracked spiritIt has to end to beginLiving in your head
Without anything to numb you
Living on the edge
Without anything to numb youIt had to end to beginLiving in your head
Without anything to numb you
Living on the edge
Without anything to numb youLiving in your head
Without anything to numb you
Living on the edge
Without anything to numb youIt has begun
