# Deth Starr

## [Tenacious D](#)

The world is fucking turning to shit
The Earth dont stand a chance
Hurricane Typhoon will destroy the city
We got to clean up the skies and recycle
We got to stop the over-population
But most important of all
We got to build a Deth Starr
Deth Starr its a fucking ship
Its a son of a bitch, yall
And were building it, its gonna
Take us up into the sky
We dont need the Earth
We gonna fucking fly sky high
Deth Starr its a son of a bitch, yall
Its gonna take us into Outer Space
Its a ship where every mother fucker
Gonna start a new
Human race in the sky
In the sky
You know we will be rocking on the Deth Starr
Total eclipse of the sky
Everybody going insane
Futuristic video game
Everybody have a good time
Synthesizing water to wine
But how
How
I hired a nerd
I fucking paid a nerd
It is absurd but
I paid him to build it, cause
I dont know how to build that shit
Come on
Theres a vacuum in space
Will fucking suck your face
Day or night
Got to make it airtight
You gotta build that shit
Make it out-of-sight!

The fucking Deth Starr
You know we will be rocking on
The Deth Starr
It will be democratic on
The Deth Starr
You know we will be rocking
On the Starr
Havin lots of sex with my friends
Dipping candle into rear-ends
Boning on a virtual plane
Fucking til Im fucking insane
Yeaow!
We got to build more Starrs
We got to spread out far
Seven strong
We gots to bang a gong
But baby hold up
Now theres something wrong
Its a fucking squid
An evil alien squid
Join up ships
We got to let it rips
We gotta blow that bitch to
Another Dimension
Deth Starr
You know we will be rocking on
The Deth Starr
There will be lots of boning on
The Deth Starr
You know we will be rocking on
The Starr
Deth Starr
We gotta build a million of em
Deth Starr
As god invokes a Cataclysm
Deth Starr
We must divide and conquer on
The Sta-aa-aarr
DETH STARR!
