

We've Arrived! (And To Prove It We're Here)

The Rules

We've arrived and to prove it we're here
We've arrived and it's suddenly clear
That we're here to stay for more than a day
Maybe a week or a year We've arrived and to prove it we're here
We've arrived and to prove it we're here
We've arrived From thirty thousand feet above the ocean
Flying high in the sky
To thirty thousand fans showin' their devotion
Hear them scream and cry We've arrived and to prove it we're here
We've arrived and it's suddenly clear
That we're here to stay more than a day
Hey, maybe a week or a year We've arrived and to prove it we're here
We've arrived and to prove it we're here
We've arrived and to prove it we're here
We've arrived and to prove it we're here We've arrived
