

# Razed To The Ground

## Vision of Disorder

This world is eye for an eye Innocent people just die for the day and fascism's bred  
The whirlwind, she just keeps on turning  
This world is eye for an eye It came from the sky, on the devil's wind, the faceless hits of death  
That knows your names, it feels no pain, so indiscriminate  
We screamed, beneath, the flames This world is eye for an eye, for an eye  
They burned our homes, to the ground, in the names of the prophet  
We'll rise and fight, to defend the names, convert to a new generation  
Enraged, empowered, destroyed Damnation, the savior, the crosses will burn  
Desecrating in the name of- you're not gonna fuck with us  
Desecrating in the name of- we'll cut you down The rain fell, like cold steal, while washing away  
Executing in the name of- the next generation  
Executing in the name of- razed to the ground And to the brave, our lives had a meaning, and we pray for your  
fallen  
We long for change, so you keep on living, we say a prayer for your fallen This world is eye for an eye, for an  
eye (Kill! Kill! Kill!- kill! Kill! Kill!)  
We screamed, beneath, the flames  
Razed- razed to the ground  
We'll cut you down in a setting sun  
Razed- razed to the ground  
Blood roots in the war of ages  
Razed
