

It's So Funny I Could Cry

[Helen Shapiro](#)

Its very funny you should say
That she means more to you than I
Its funny you and her in love this way
Its so funny I could cryI introduced you out to dance
She took you from my arm that night
Its funny how I started this romance
Its so funny I could cryYou didn't mean to harm me so
You didn't want this to happen
The joke is on me, I know
But I can't seem to start laughing
Because you said hello to her
That's why you're telling me goodbye
Its very funny I arranged it all
Its so funny I could cryYou didn't mean to harm me so
You didn't want this to happen
The joke is on me, I know
But I can't seem to start laughing
Because you said hello to her
That's why you're telling me goodbye
Its very funny I arranged it all
Its so funny I could cryIts very funny I arranged it all
Its so funny I could cry
