

Everything

Johnny Orlando

I see your picture every day and it hurts
You settle for second when I put you first
So girl pick your head up
You deserve more than you know
Believe when I tell you
You're so beautiful You deserve love
The kind that everyone searches for
So what about us?
I'll give you my heart and so much more Everything
I would give everything baby
'Cause right now you're driving me crazy
Tell me you wanna be with me
Oh yeah
You know you are one of a kind
I just wanna make you mine
I would give everything baby
Everything, everything trust me How many times have you waited here by the phone?
And before you realize you don't need to be alone
No more staying home at night
With tears falling out of your eyes
I'm gonna be right by your side
Yeah-eah You deserve love
The kind that everyone searches for
So what about us?
I'll give you my heart and so much more
Everything
I would give everything baby
'Cause right now you're driving me crazy
Tell me you wanna be with me
Oh yeah You know you are one of a kind
I just wanna make you mine
I would give everything baby
Everything, everything trust me For all the times they tried to step on your dreams
It doesn't matter girl 'cause your all I need
I hope that you can finally see what I see
It's all clear to me that you deserve everything
(Woah-oh) I would give everything baby
'Cause right now you're driving me crazy
Tell me you wanna be with me (Wanna be with me?)

Oh-yeah

You know you are one of a kind (One of a kind)

I just wanna make you mine (Wanna make you mine girl)

I would give everything baby

Everything, everything trust me
