

7 Day Weekend

Grace Jones

Oh, nobody does it the way I like this?

Where are you from?

Yeah, you really got me now I was at a party, spotted your baby face

Hair slicked back in place, smile so vivid

I knew I had to make a move on your pretty feet

Weak off I've got to think to get you in my limits Let me show you how to ease my tension, use your body and
soul

Just how far will I go?

You want an answer to your question do you really want to know?

You're out of my reach that's why I want you more It's a choice of trick or treat

We'll begin and end on a 7 day weekend

Are you so blind that you can't see?

A kiss will lead you on, sex will bring you under

I bet you it's all over Uh huh, gotta get up, gotta get up

Send you up, send you up

On a 7 day weekend Contradictions get distorted

And you know there's no guarantee

(Gotta get up, gotta get up)

I had to fool with his friend

Standing in front of him to bring his attention to me

(Gotta get up, gotta get up) Let me show you how to ease my tension, use your body and soul

Just how far will I go?

You want an answer to your question, do you really want to know?

'Cause, you're out of my reach that's why I want you more It's a choice of trick or treat

We'll begin and end on a 7 day weekend

Are you so blind that you can't see?

A kiss will lead you on, the sex will bring you under

I bet you it's all over Love that's beyond the line

Losing my dignity

Love without trust, what is it worth

You've got to live your life gracefully Gotta get up, gotta get up

Send you up, send you up

Send you up, send you up It's a choice of trick or treat

We'll begin and end on a 7 day weekend

Are you so blind that you can't see?

A kiss will lead you on the effect will bring you under

I bet you it's all over It's a choice of trick or treat

We'll begin and end on a 7 day weekend

Are you so blind that you can't see?

A kiss will lead you on the effect will bring you under
I bet you it's all over Ohh, yeah
You make me feel so good inside
Baby, let me love you tonight
I'm yours weekend It's a choice of trick or treat
(I tell you)
We'll begin and end on a 7 day weekend
(Gotta get up, gotta get up)
Are you so blind that you can't see?
A kiss will lead you on, effects will bring you under
I bet you It's a choice of trick or treat
We'll begin and end on a 7 day weekend
(Gotta get up, gotta get up)
Are you so blind that you can't see?
A kiss will lead you on, effects will bring you under
I bet you It's a choice of trick or treat
Are you so blind that you can't see?
I bet you it's all over It's a choice of trick or treat
Are you so blind that you can't see?
