

It Only Takes One Bar (To Make a Prison)

Tracy Lawrence

Last night she wasn't sleepin' when I came slippin' in
I knew I had it comin' 'cause she knew where I'd been
She said, "A part of me walks out that door every time you leave
So remember this while you are losin' me""It only takes one bar to make a prison
You've been doin' too much time away from home"
She said, "It takes two hearts to hold a love together
But it only takes one fool to be alone" She said, "I've sat here in the darkness one, two, many times
And stealin' thoughts of holdin' you has been my only crime"
Right then I realized, she'd always have the key
And locked up in her arms is the only time I'm free It only takes one bar to make a prison
And I was doin' too much time away from home
It takes two hearts to hold a love together
But it only takes one fool to be alone
