

# I Like You

## The Flipsides

He's a popular guy in town  
He's pretty smart and he's good looking  
My mom thinks that he is my type  
I don't like him. It's not all right.  
We went on a date. It wa such a bore  
So I'll have to say when he comes knocking on my door.  
It's just a lie  
I'm saying yes, but I mean no  
And it's just my luck. I like you but I  
love him more. See, there's this other guy  
in town. I'm not supposed to love someone  
like him. I've struggled to get him out of my mind. It's not working.  
It's not all right.
