

Come Awake

The Lower 48

Oh oh oh
Are you watching are you watching the starry sky
Oh oh oh
Are you hoping, are you hoping for satellites
Cause were always laying under the same night
Were always laying under the same night
Oh oh oh oh I love you no matter how near or far
Oh oh oh oh I love you just the way you are
So come awake come awake in the morning of your life
Come awake come awake in the morning of your life
Come awake come awake in the morning of your life
Come awake come awake in the morning morning morning morning morn
Oh oh oh were you watching, were you watching my train pull away
Oh oh oh were you watching, were you watching my train pull away
Well be just fine through the night
And Ill still be dreaming of you
Ill fall asleep near my favorite tree hoping that youre dreaming too
Come awake come awake in the morning of your life
Come awake come awake in the morning of your life
Come awake come awake in the morning of your life
Come awake come awake in the morning morning morning morning morn
