# Johnny Moon

## Heart

Johnny Moon dreams in class
Answers the question before it's asked
You can see Johnny but he's not here
Nobody saw Johnny disappear
Mama says his mother's too easy
Lettin' him come and go as he pleases
Walls and windows won't do it
Lock the door, Johnny goes right through it
It's so hard to get his attention
When he's out there in another dimension
Johnny, I wanna follow you outside
I wanna feel that high

It's so hard to get your attention
When you're out there in another dimension
Johnny, I wanna follow you outside
I wanna feel that high
Johnny, you, I can pretend with
You are the only one I can really bend with
Take me 'cross the river Styx
Fill my eyes with fire tricks
Anything you got hidden up your sleeve
Oh, anything you tell me, Johnny, I'll believe
