

Go Ahead

Tina Turner

You see me smile but you paint an ugly face
Everything you do is all about the chase
Don't let them see you cry, don't let them know
You won't lay down and die for their show Oh ho, why don't you go ahead tear my heart out?
Why don't you go ahead hang me out to dry?
Go ahead play and your game, go ahead
Spread my name all over your blood red sky They color your stars till the light begins to fade
But never give up 'cause every dog has it's day
Don't let them see you cry, don't let them know
You won't lay down and die for their show Oh ho, why don't you go ahead tear my heart out?
Why don't you go ahead hang me out to dry?
Yea go ahead and play your game, go ahead
Spread my name all over your blood red sky
Go ahead And why don't you go ahead, go ahead, go ahead?
Why don't you go ahead hang me out to dry?
I said go ahead play your game
Go ahead play your game
Go ahead play your game
Your blood red sky
Ohh ho Why don't you go ahead tear my heart out?
Why don't you go ahead lay me out to dry?
Go ahead
I said go and ahead play your game, go ahead
Spread my name all over your blood red sky
Go ahead Why don't you go ahead tear my heart out?
Why don't you go ahead hang me out to dry?
Go and go, and go, and go, and go, and go, and go, and go
And go ahead and hang my heart out
I said go ahead and play your game, go ahead
Spread my name all over your blood red sky
Your blood red sky
Blood red sky
