Let It Roll

Chesapeake

The time on the clock reads half past four
I?m wide awake and thinking
With my pillow on the floor
Then maybe I?m just wasting my time
Dreaming in a harsh reality
I don?t wanna wake up just to find out
It?s the same
Let it roll, our time is fleeting so we take control
From California to my home sweet home
Our days repeating like it?s all we know
It?s all we know
Out here the hills roll on for miles
The sun is like my own sense of direction
I?m always drawn to each horizon
When it?s rising, when it sets
But all I can think about is sex
And playing one more game of six cup
In the backyard at the wedge
I know I?ll never die alone because of all of you
Let it roll, our time is fleeting so we take control
From California to my home sweet home
Our day?s repeating like it?s all we know
It?s all we know
Take, take a breath
We?ve got all the time in the world
To get a grip on the fact that we don?t last
But right now I wanna watch the tide roll in
With my best friends
Let it roll, our time is fleeting so we take control
From California
Let it roll, our time is fleeting so we take control
From California to my home sweet home
Let it roll, it?s all we know
It?s all we know
