Gravity

The Whitest Boy Alive

It's all fun, fun and games until
Somebody sees what they should not see, the innocence is killed
Not written, certainly not shown
But eventually what's meant to be covered up gets knownYou only want to be with her because she's mine
You will lose me as a friend if you cross that line
She's the gravity my life circles around
She's the gravity my life circles aroundBut how long can a cool cat keep its calm
Despite the mounting evidence that there's cause for alarm
Cause for worry, cause for pain
Physically threatening you, responsible alienYou only want to be with her because she's mine
(You're wrong)
You will lose me as a friend if you cross that line
(So long)
She's the gravity my life circles around
(Move on)
She's the gravity my life circles around
