

# The Nile

## Santana

Woke up into a dream and I was walking  
Up and down the streets of Cairo  
And then I heard a voice that said, I know you  
Its time for you to turn and face me  
Her hair was long, her eyes reached out and touched me  
She said, I know just what it is you're after  
Death is all around you  
So, you look for freedom  
I know where to find it  
Let's go to the river  
We sailed upon the Nile, I was enchanted  
By the beauty in her magic  
She showed me that my fears were unimportant  
Then she touched me with her vision  
Her skin was dark, her voice was liquid fire  
She said, I am your mate and soul's desire  
Love is all around you  
Light is deep within you  
Life is always flowing  
Let's go down the river  
Her skin was dark, her voice was liquid fire  
She said, I am your mate and soul's desire  
Love is all around you  
Light is deep within you  
Life is always flowing  
Let's go down the river  
Why should we [Incomprehensible]  
I know it's what you're feeling  
I know where you're going  
Down by the river  
Come and hit it with fire  
[Incomprehensible]
