Electric Pulse

Static-x

It's time to melt you down
It's time to strap you in
Your mind's about to be diminished
I scream to get me off
Air blast to pull you in
You feel the atrophy
Electric, electric pulse
Electric, electric pulse
Nightmares to shut you down
Static to keep you in
Darkness what you don't see
Atomic
Shock waves to set you off
It's time to throw the switch
It's time that you receive
Electric, electric pulse
Electric, electric pulse
Electric, electric pulse
Electric, electric pulse
Electric pulse
Electric pulse
Electric pulse
Electric pulse
Electric pulse
