

# That's Paradise

Steven Curtis Chapman

Jimmy and Mary were quite a pair  
Back in their younger days  
They met a married in six weeks time  
And that was sixty years ago this May  
Four kids made a house a home  
And a love for Jesus kept them strong  
Now every morning at 8 a.m.  
Jimmy takes a drive through town  
He spends his days at Mary's side  
At a home for the old and broken down  
With a cane in his lap and a Bible in his hand  
He reads her stories about the promised land  
And with tears in their eyes they dream of a place  
Where everything changes in the light of Jesus' face  
And that's paradise  
Hey, that's paradise  
When the life breaks through and the old's made new  
And the joy will never die, that's paradise  
Hey hey hey  
In another corner of this world  
Met another man named Jim  
Told me how twenty years of running from God  
Had finally gotten the best of him  
He said all hope was gone and he wanted to die  
'Cause what could God do with such a messed up guy  
So we talked about Jesus, God's love and His plan  
And when Jim walked away he was a brand new man  
And that's paradise  
Yeah, that's paradise  
When the life breaks through and the old's made new  
And the joy will never die, that's paradise, yeah  
Yeah yeah yeah yeah  
Now listen  
Well, I know the best remains to be seen  
In a place that's far beyond our wildest dreams  
But until we see Heaven, we've got Jesus' word  
That He'll never leave us and each prayer will be heard  
And that's paradise, oh yeah  
And that's paradise

And that's paradise  
Yeah, that's paradise  
And that's paradise  
When the life breaks through and the old's made new  
And the joy will never die, yeah, that's paradise  
Oh, that's paradise, yeah  
Oh, no no no  
Oh, when the life breaks through and the old's made new  
And the joy won't die, no, that's paradise  
Paradise  
Paradise  
Paradise  
Paradise
