Radio (FCC Version)

Pitty Sing

I know ya think we're all over the place and we're such a disgrace
But we'll be fighting dying, living, crying
I know we gotta get out of this room
Only me, only youAnd we'll find out why it's all logic to prove
Why they're changing our name
Why they're changing the game
We've got to get physical to move
All the objects they make, all the objects they fakeSwitch on the radio
We'll switch on the radio, radioSwitch on the radio
We'll make it goLiving mistakes that aren't easy to make
They're not easy to break
But we'll be screaming, thumping till they're bumping
I know you just think of the minds we could lose
Only me, only youAnd we'll find out why it's all
Dutiful to crash when we're having a laugh
When we sign autographs
We've got to get beautiful inside
And we're watching your kind and we've been taking your mindsSwitch on the radio
We'll switch on the radio, radioSwitch on the radio
We'll make it goWhen you're wasted
We'll be crawling up your thighs
Desecrating all the good that's left insideWe'll switch on the radio
We'll switch on the radio, radio
We'll switch on the radio
We'll switch on the radio, radioWe'll switch on the radio
We'll switch on the radio, radioWe'll switch on the radio
We'll make it go
