All the Fucks

16 Ton Rockers

All my life they've told me
To act my age, get in the cage
They never really got me
My anxiety, my utter rage
Again and again the judge me
Again and again they try to cool me down

Woah - this is who I am
Woah - this is how I live
Just look at all the fucks I don't give

Still the naggin' is on
Get a normal life, a normal wife
Why is being me never enough
Why is still ignorance rife
Again and again the diagnose me
Again and again they put their labels on me

Woah - this is who I am
Woah - this is how I live
Just look at all the fucks...

All the fucks, all the fucks
All the fucks that I don't give
