First Love

Jessa Zaragoza

Once in a while
You are in my mind
I think about the days that we had
And I dream that these would all come back to me
If only you knew every moment in time
Nothing goes on in my heart
Just like your memories
How I want here to be with you
Once more

You will always gonna be the one
And you should know
How I wish I could have never let you go
Come into my life again
Oh, don?t say no
You will always gonna be the one in my life
So true, I believe I can never find
Somebody like you
My first love

Once in a while
Your are in my dreams
I can feel the warmth of your embrace
And I pray that it will all come back to me

If only you knew every moment in time
Nothing goes on in my heart
Just like your memories
And how I want here to be with you
Once more
Yah yah yah

You will always be inside my heart
And you should know
How I wish I could have never let you go
Come into my life again
Please don?t say no
Now and forever you are still the one
In my heart
So true, I believe I could never find

Somebody like you
My first love
Oh oh

You will always gonna be the one
And you should know
How I wish I could have never let you go
Come into my life again
Oh, don?t say no
You will always gonna be the one
So true, I believe I could never find
Now and forever
