

I Love Bugs

Yo Gabba Gabba!

I love bugs
I love bugs I wish I was kinda small
So I could be like the bugs crawling up the wall
I could live in the dirt, make a mud palace
Chillin' in the garden, eatin' all the salad
Or maybe I could have eight legs and make my own web
Hang upside down and maybe live underground (ugh)
So many cool things bugs can do
I can sing this song just for me and you I love bugs
I love bugs (we be buggin') Bees make honey they don't do it for money
And ants in your pants will surely make you dance
Centipedes need a thousand shoes
Mosquitos livin' in the blue bayou
Butterflies, so unique
Give us little kisses upon your cheek
So many cool things bugs can do
I like bugs baby, how 'bout you?
