# Your Song

## Caliban

I'm far away from home
I've traveled the world
From town to town
And even when I feel alone
Every stage feels like I'm coming homeA tribute to the faithful
You were always true
A tribute to all kindred souls
Here's to you!This is your song!
This is our song!
We're coming home
Where we belong
This is your song
This is our song
We're flesh and bone
So sing alongYou're not just a face in the crowd
You're motivation
You're gold
Four words from a thousands lips
We are the apocalypseA tribute to the faithful
You were always true
A tribute to all kindred souls
Here's to you!This is your song!
This is our song!
We're coming home
Where we belong
This is your song
This is our song
We're flesh and bone
So sing alongStraight from my heart
Here's to youI promise you
Here and now
As long as I breathe
I won't let you down
I promise you
Here and now
With my heart and soul
we'll never bow downLet's goThis is your song!
This is our song!
We're coming home

Where we belong
This is your song
This is our song
We're flesh and bone
So sing alongStraight from my heart
Here's to you
Here's to you
