Fell In Love At 22

Starflyer 59

Fell in love at 22
With a girl that's close to you
Find a job and find a life
No more long days, longer nights
With your girl and family too
Playing card games in the roomThis is our life, our old times
This is our life, our old timesNow that John is 42
With a family like you
With a job that led him down
Don't you know I led him 'round?This is our life, our old times
This is our life, our old times
