

Full Moon on Jupiter

Allure of Souls

Full Moon On Jupiter

A silent whisper in the dead of the night
Across the sky such a beautiful sight
In the endless time
In this state of mind

I hear the desperate voices of heaven and hell
Seduced by the promise of the wishing well
What will I do
If a dream comes true?

Stay with me weâ€™ll see what the moment brings
To fall in love changes everything

On Jupiter
Thereâ€™s a full moon rising
On Jupiter
Thereâ€™s a full moon rising
On Jupiter
On Jupiter

With the blood of Venus like the colour of Mars
I left the devil in a downtown bar
Playing solitaire
Now Iâ€™m a long way from there

Purified by this magic night
I stopped the struggle when I gave up the fight
Made the whole world new
Now I can be with you

Will love last forever? I do not know
The sky is full with the longing of the soul

On Jupiter
Thereâ€™s a full moon rising
On Jupiter
Thereâ€™s a full moon rising

On Jupiter

No more sighs, no more rain
No more lies, no more pain

Thereâ€™s a full moon rising
On Jupiter
Thereâ€™s a full moon rising

On Jupiter
Thereâ€™s a full moon rising
On Jupiter
Thereâ€™s a full moon rising

On Jupiter
On Jupiter
