

Too Much

Sofia Loell

Too fast

Too fast I need for you to notice me, I need for you to see

I need for you to open up, you need to let me in

That is what I'm waiting for, that is all I want

But I need to hold my horses, I need to slow down I wish for you to hold my hand, I wish for you to care

I wish for you to be my man to always be there

Well, that is what I'm hoping for, that is all I want

But I need to hold my horses, I need to slow down 'Cause I want too much too fast

I want too much too way fast

'Cause I want too much too fast

But I need to hold my horses, I need to slow down Oh, I'd like to be the reason for you to carry on

I'd like to be your good times and I'd like to be the one

And that is what I'm hoping for, that is all I want

But I need to hold my horses, I need to slow down 'Cause I want too much too fast

I want too much too way fast

I want too much, want too fast

But I need to hold my horses, I need to slow down I want you to feel that I'm here inside

I want you to know that your world is mine

But if you think I move too fast

I'll wait for you, I'll slow it down I want too much, want too fast

But I need to hold my horses so I need to slow down

I want it too much and too fast

But, yeah, I want to hold my horses, I want to slow down Too fast

Too fast

I need to, I need to

I need to slow it down
