Black Refuge

Junip

Another ending on your story
Now I'll have to speak to you from a distance
Because I tend to forget my duty
When I get to close to your resistance
Say what you have to say
I know it isn't you anyway
Use all the colours that you want to
I'll use black
I'll use black

I tend to forget my duty
But this time I'll use black
I tend to forget my duty
But this time I'll use black
But this time I'll use black

This time I'll use black
This time I'll use black

I'll use black
I'll use black
