I'm a beautiful

ì•,ē<` ēl,,ê²•í•œ LiarTranslation:

This is a beautiful lie

My last lie

Even if it hurts to death

I am hiding myself

under a mask for you

I see myself in the mirror and I ask myself

Will it really make you happy if I let you go?

I'll throw myself away completely

because you need quiet time to yourself

Did I say those things without even meaning it?

As I replay your face

when you screamed go away

I'm tainting our memories that were beautiful

I haven't imagined a life without you yet

but please be happy

So that at least my lie can shineI'm letting go of your tightly held hands

But my heart is still the same

But I'll let you go

I'm letting go of your hands

But my heart is still the same

I think it's best for you

if I end it right hereThis is a beautiful lie

My last lie

Even if it hurts to death

I am hiding myself

under a mask for youIt's alright if you leave me

I want you t be happy

Oh I'm

I'm a beautiful

I'm a beautiful liar
You keep shedding tears
in front of me
It was an unexpected line that
led to the next chapter
You told me to take back
the words I spit out
As you hold onto my face
Then you collapsed off your feet
This isn't the future I thought of
It seemed like a sin to look at you
like a lonely tied up dog
So I'm swallowing up my feelings
and letting you go
You must live better than me, promise me
But the moment I said that,
you turned around
I won't hang onto you, I will smile
This is me, don't hesitate anymore
Leave me
This is a beautiful lie
My last lie
Even if it hurts to death
I am hiding myself
under a mask for you
It's alright if you leave me
I want you to be happy
Oh I'm
I'm a beautiful
I'm a beautiful liar
It's time for me to give you
The last bits of my heart
The fact that we loved is beautiful
It's time for me to give you
The last bits of my heart
The fact that we loved is beautiful
Me with iron shackles on my legs
Is more like me than ever before
(You turned around, ran to me
Told me not to say stupid lies
As you smiled in front of me)
It's a beautiful pain
Letting you go
I have to kill myself inside
Swallow my tears
And put on a smiling mask
I feel so relieved now
Please don't worry about me
Oh I'm
I'm a beautiful
No, a cowardly liar
