

Natural Thing

M People

Our love, our love, our love is a natural thing
Our love, our love, our love is a natural thing Take a breath and wonder why such things exist at all.
A moment in time. a love so sublime.
Like a yellow field in June, an eclipse of the moon.
A river flowing through the land, a boy and girl are holding hands. Our love, our love, our love is a natural thing
Our love, our love, our love is a natural thing
Like water from a spring it's such a natural thing
Like water from a spring it's such a natural thing
Our love, our love, our love is a natural thing Nothing can compare with this in our state of natural bliss.
A moment in time. A love so sublime.
A the sea that crashes to the shore. What we have is oh so pure.
A woman giving birth. Flowers growing from the earth. Our love, our love, our love is a natural thing
Our love, our love, our love is a natural thing
Like Picasso with a brush I get that natural rush
Like water from a spring it's such a natural thing
Our love, our love, our love is a natural thing If you're so natural, natural, natural, natural love
If you're so natural, natural, natural, natural love Our love, our love, our love is a natural thing
Our love, our love, our love is a natural thing
