

Ocean in the Way

Dinosaur Jr.

Said there's an ocean and I'm in the way
I'd like to go soon, we'll shine through the lake
I need to feel it, you don't need a thing
Got tons to feel, what else should I bring? Said there's a panic that I can't describe
I need that something I see in your eye
Just wanna lay down when I cannot deal
Pick me back up, give me something to feel I've been out lookin' for somewhere to hide
There's been a mix up somewhere deep inside
I feel the ocean inside of your heart
Just takes a doubt to come smash it apart Come on down, got some work to do while I'm around
Come on down, got some work to do while I'm around
Come on down, come on down
