# Soulmate

## Dre

Like the wind you blow threw me
Every time I see you smile
your caress refreshes me
Like a morning dew
I'd never knew that you'd be
All the things that I need
Didn't know that you'd show me
your emotion, so completeTell you all the nights I prayed for this day
Curious about the way you'd feel
Now that your here I'm asking myself
How could you be real
Today is here and yesterday is gone
Don't you ever leave me alone
Is it destiny, or is it fate
or have I found my soul mateIs this only the beginning
Tell me is there more to come
Let it be true that you are the, one I've waited for
You've shown me hoe to see
endless possibilities
Loving the here and now
Still I can't hardly waitCan't tell you all the nights
I've prayed for this day
Curious about the ay you'd feel
Now that your here I'm asking myself
How could you be real
Today is here and yesterday is gone
Don't you ever leave me alone
Is it destiny or is it fate
or have I found my soul mateMy heart, Lead me, To you
It's true and now we have to choose
What to do with this blessing
Sent from up above
I'm so thankful for your loveCan't tell you all the nights
I've prayed for this day
Curious about the way you'd feel
Now that your here I'm asking myself
How could you be real?
Today is here and yesterday is gone
Don't you ever leave me alone

Is it destiny or is it fate
or have I found my soul mate
