

R.I.P. (Rest In Pain)

Sepultura

Fast death, disenchanted by the life
Marked by the envy and scorn
Show to the world his mortal hate
Die with regrets There's no light and there's no air
The roses smell corrodes
A deep agony possesses me
To be forgotten under a burial Rest in pain
Rest in pain
Rest in pain You wake up lying on wet ground
Worms corrodes your flesh
Pick up your own eyes
Watch your septic end To shout at someone and not to be heard
The silence supports the paranoia
To die crying, this is my fate
The life I choose Schizophrenia
Paranoia
Insane death
Rest in pain Fast death, disenchanted by the life
Marked by the envy and scorn
Show to the world his mortal hate
Die with regret There's no light and there's no air
The roses smell corrodes me
A deep agony possesses me
To be forgotten under a burial Rest in pain
Rest in pain
Rest in pain
