

# I Love You

## Under The Influence of Giants

It's a shame that you're gone  
Losing sleep when I keep rollin' to your song  
Wonder how I appear in your head?  
When I keep rollin', rollin' on I wanted to say that I love you  
I wanted to say that I do, yeah  
I wanted to say that I love you When I can't disappear from your face  
'Cause it's a sure shy, ooh  
I'm a man who admits that it's hard to be alone  
And missin' you, missin' you I wanted to say that I love you  
I wanted to say that I do, yeah  
I wanted to say that I love you Go bet on my cry, oh, and lie  
Go, go and cry, oh, and lie I wanted to say that I love you  
I wanted to say that I do, yeah  
I wanted to say that I love you I wanted to say that I do, yeah  
I wanted to say that I love you
