

Graveyard Shift

[Scott H. Biram](#)

Well I'm a death dealin' creep in a white trash town
My work starts up when the sun goes down
Roam the streets nearly every night
lookin' for that shit that'll make me feel alright
Graveyard shift is the one I like
Graveyard shift is the one I like
Graveyard shift is the one I like
Sleep all day cause I'm up all god damn night
Dark is cover for my sunburnt eyes
Perfect weather for a 3am drive
All Death's sweethearts hangin' off my grill
Cross my heart dog you're bound to get killed
Give a nod to the pigs as they drive by
Take another hit so's I get so high
Have another sip cause I get so dry
Work the graveyard shift till the day I die
by and by and by and by and by
Graveyard shift is the one I like
Graveyard shift is the one I like
Graveyard shift is the one I like
Sleep all day cause I'm up all god damn night
